Dey's Medical Stores (Mfg.) Ltd.
62, Bondel Road, Kolkata - 700019

The Return should be sent to the Chief Inspector of Factories by 15th July of the current year.
*The average daily number should be calculated by dividing the aggregate number of attendances during the half-year by the number of working days during the half-year. In reckoning attendances, attendance of permanent employees should be counted and all employees (including apprentices) should be counted and all employees should be include whether they are employed directly or under contractors. Attendance on separate shifts (e.g. night and day shifts) should be counted separately. Days on which the factory was closed for whichever cause, and days on which the manufacturing processes were not carried on, should not be treated as working days. However, if more than 50% of workers employed (on the previous day) attend to repair, maintenance or other such work on closes days, such days should be treated as working days.

Partial attendance for less than half a shift of working days should be neglected and attendance for half a shift or more should be treated as full attendance
